## VISITORS WELCOME

We will have thousands of seedlings which will begin blooming May 1 and continue throughout the summer. You are invited to visit our gardens at your convenience. We will have daylily bloom from the time the iris blooms until frost.

**TIME OF SHIPMENT:** From August 15 to October 15.

**TERMS:** Full remittance with order—check or money order. No C.O.D.'s. We pay the postage on orders of \$5.00 or more. Please add 50¢ on orders less than \$5.00.

**SUBSTITUTIONS:** Please give second choice. Other than that no substitution will be made without your permission and your money will be refunded.

**FREE:** We usually give you about 10% of your purchase in extra daylilies. Please make suggestions from our general list.

**GUARANTEE:** Our plants are STATE INSPECTED. Guaranteed true to name and in good growing condition when shipped. No warranty can be given for cultural success. However, if for any reason or no reason, you are dissatisfied when stock arrives, you may return it and your money will be promptly refunded—plus return postage.

## 1958 INTRODUCTIONS

After ten years of working for better **EARLY DWARFS**, we are at last introducing five varieties which we think are very superior in every way to any other early ones that are now on the market. They will give you the extended bloom that gardeners are looking for. All five of these varieties rebloom in this latitude; thus giving the garden fall revival. The first three listed are very, very early, blooming several days ahead of Caprice and Midden-dorffi.

**LIME SPRITE**—Night bloomer. 30" to 36". Stays open 24 hours. Sun resistant. Heavy substance. Small round 3" flower of pale lemon with green throat. Both petals and sepals fully recurved. Exquisite for arrangements or for the evening garden. Vigorous grower. Proliferates profusely. In our latest of springs, it has always been open by May 1. 23 buds. Remontant....\$7.50

**SOONER GOLD**—We think this is the best of our early bloomers. 18" to 22". Deep gold self. 4" flower. Very fragrant. Opens early in the morning and stays open until noon the following day. Reblooms early in the fall with as many as 32 buds and is a mass of bloom until cut down by frost. We have had fall blossoms remain open four days. This blooms early enough in the fall to harvest the second crop of seeds enabling one to make crosses with pollen saved from other major varieties.....\$7.50

**SPRING GOLD**—27" Early. Medium yellow with green throat. Ruffled overlapping sepals and petals. 6" flower. Blue-green foliage. 30 buds give it a six weeks' period of spring bloom. Heavy plum-blossom fragrance. Remains open in the evenings. Remontant .....\$7.50

**POT OF GOLD**—30" Early. Deep gold with green throat; back side of pollen carrier is black. 35 buds. Heavy texture. Remains open all night. The recurved petals are so ruffled at the edge that they appear to be picoted. 3" flower. This came into bloom on May 3 last year and was still going strong June 6. One of the best for landscaping. Repeats in the fall.....\$7.50

**RED BONNET**—24" Early. 3½" flower. Medium red self; gold throat. 25 buds. Heavy velvety texture. Repeats throughout the summer. The nicest early red we have seen to date.....\$7.50

We are also introducing two Midseason to Late varieties which are very desirable.

**CUTE BABY** (J. C. 1957) 36" Midseason-Late. Medium gold with green throat. Small 2¾" flower. This little baby will have anywhere from 50 to 108 buds per scape. What it lacks in size it makes up in number giving it an exceptionally long period of bloom. It will still be blooming when the repeat bloomers come again. The branching is in such wonderful proportion that there is never that "leggy look" to this plant.....\$12.50

**TULSARAMA**—32" Midseason-Late. Remontant. Medium sized, recurved, ruffled, deepest gold self with green throat. Proliferates. Blue-green foliage. Vigorous grower. 40 buds. We have had no burning on this flower even when the temperature was 104°. It seems to thrive and rebloom even under drouth conditions when nothing else does.....\$12.50

ADELE PITZER (Lamb) ML 45" Medium red self. Semi-evergreen. ....	\$5.00
BAND MAJOR (Childs) M 36" Re. Large yellow self. Sun resistant. Excellent branching.....	\$10.00
BEN HUR (Richards) M 42" Re. Widespread velvety garnet. Open evenings. ....	\$1.00
BIRETTA (Kraus) M 28" Dor. Sunfast ruby-red. Long blooming season. ....	\$3.00
BLACK FALCON (Nesmith) M 30" Dark mahogany.....	\$1.00

Warpath (Russell) E 36" Dark red

## TERRY'S PLANT MARKERS

Made of galvanized steel and painted a neutral green color. The head is spot welded onto the stake at an angle of 35 degrees, an ideal position for easy reading of data.

We furnish 40 aluminum cards with each box of 36 markers. You simply write your data on the foil card by placing it on a blotter and indenting with a lead pencil. For better visibility it can be traced with a waterproof or metallic ink.

After you have marked the card, slip it through the slot at each end of the marker head and fold back to lock in position.
